REMARKS

Enter here general data with reference to "Line" and "Periodic" inspections — Rigging Changes — Alterations — Repairs — Service Letters — and changes in propeller or engine — as outlined in the front of this book, under the heading, "INSTRUCTIONS FOR USE OF THIS LOG BOOK." ALL DATA must bear the endorsement of a certificated mechanic, and his rating and certificate number must be shown.

I have inspected this aircraft and found it to comply with FAR 21.183. All mandatory changes have been incorporated. The static pressure system and altimeter instrument Gp2727 were inspected and tested 2-14-76 to an altitude of 20 thousand feet and found to comply with FAR 91.170. The ATC transponder was tested and inspected _____ and found to comply with FAR 91.177(a). Automatic altitude reporting equipment was tested and calibrated N/A in compliance with FAR 91.36(b). Standard airworthiness certificate dated 5-5-76 was issued by me.
